

SWS Wellness Screener – Registration and Daily Completion

In accordance with our Reopening Plan and our priority of helping to keep our community safe and healthy, ALL families and staff will be required to complete our Wellness Screener before arrival at school each day beginning Tuesday, September 7th.

SWS, or the School Wellness Screener, is a brand new program developed to aid in the re-entry of schools during the 2021-2022 school year.

REGISTRATION

To download and begin using the app, please follow these steps (this is a 2-minute process):

(1) Important: Designate ONE parent to register for the app. (If both parents sign up separately, the student's account will be duplicated, which will cause issues at drop-off.) The second parent will be added once the initial set up is complete. Once you have decided which parent will register, that parent should complete steps 2-4 below, and read on to step 5 to add any additional parents/guardians.

(2) ON YOUR CELL PHONE, download the app (School Wellness Screener) [HERE](#). The link will automatically direct you to the correct app store for your operating system (iOS or Android).

(3) Enter the school-ID as: themeadschool-9602

(4) Complete the login. NOTE: if you're a parent or faculty member with children, please add ALL of your children to your account before completing registration.

(5) Once the first parent/guardian has set up the account and added the student(s), that parent should go to Settings: Share with Guardian. Here, please enter the other parent/guardian's email address (please add the email address carefully and accurately). The 2nd parent/guardian will then receive an email allowing them to link to the student's original account.

If you have any questions or issues with the sign-up process, please email SWS support at:

help@visionappsproducts.com, or visit the following URL for FAQs and/or to submit a help request: <http://help.schoolwellnessscreener.com>.

DAILY APP COMPLETION BEGINNING 9/7/21 for ELC & 9/8/21 for K-8

By 7:00 AM each morning for ELC and by 7:30 AM for K-8, you will be required to complete the screener (5 YES/NO questions) to confirm your child's status of health.

When you have successfully submitted your screener app, a GREEN screen result will confirm that you have submitted the app without issues and are welcome to enter the building. If there is any issue, you will find a RED SCREEN that directs you to NOT ENTER THE BUILDING, along with a note that the School will follow up with you.

Thank you so much for your partnership in our efforts to keep our full community safe and healthy!
